Doctor Hozair Syed, I do not know if your np contacted you regarding the appointment on the 4th of Jan with my mother attending too. The meeting with your staff was a complete failure to PATIENT-CENTERED Communications. See Email and Faxes to Care@InlandPsych.com --- I need you to understand something, My Mother Says: " hopefully it will turn out all right on Tuesday process of change to patient-centered care will be established maybe not all at once but at least a step will be taken."

What happened with My Prior Interface with Dr. Farooqi MUST BE BROUGHT INTO VIEW --- 3 years ago, I placed comments on his NPINO.COM page --- and So to I must impose a truce to the truth. Stop Prevaracading around the truth The Bias You are holding against progress reflects perhaps something very sinister and dark --- and is why the FBI was put into view of all of this.

<https://npino.com/npi/1902858194-dr.-mubashir-ahmad-farooqi/> I am doing absolutely nothing wrong. Why block real care?

I have an address of concern here. Starting on Jan 6th, 2022 [10 days ago]. I had an appointment with my HIV Doctor on January 13th, 2022. It did not go so well. I had FAXED the introduction of Patient-Centered communications went ignored. That fax was never confirmed to be placed into priority. You both doctors are devoid of what is the law. <https://www.cdc.gov/ncbddd/disabilityandhealth/disability-inclusion.html> #HugeFail Tue, January 04th at 9:30 AM PST with CHINYERE OBAKHUME

In my efforts to ensure that everything is properly aligned out of the imbalance that you imposed on me, my HIV doctor provided an email address to direct him an address of great importance into the view of everyone that needs a social correction. That is for sure. I sent the email to him and stored the email public. You can access the email also. As it applies and mentions what must be activated [by law] into my care. Link Follows. DON'T YOU HAVE ANY PROFESSIONALISM TO REpond TO ME?

Your patient here is a "Personal Information System" and is in fact a part of our informational society. You must utilize the links provided in your effort to maintain the standard of the law that applies -- CDC article is given the reasons why. Are you going to follow the law and have essential materials in your mind and mode of how you interface to my patient care? If not, then we have a problem that is irreconcilable.

Your fault, not mine. I will update you with a photo. QR Code applies
